- **Comments:**

Enhance Quality. Expand TM World. Meet New People.

Division A covers North East of Japan. Our division consists of 5 areas including 21 clubs. We cover the broad field. For example, the most northern club is in Misawa, Aomori prefecture and the most southern club is in Shinjuku Ku, Tokyo Prefecture. The distance between the two clubs is about 684 km.

Our strength is diversity. Each member of our division is from various places and different backgrounds. That gives us a full range of knowledge, a way of thinking and resilience. On the other hand, we are united to learn leadership and communication skills through Toastmasters.

Together, let us build an amazing platform where we can challenge and inspire each other to better our communication skills and become better leaders!
